# Web Designing & Development

We take great pride in producing exceptional web sites that effectively combine technology and design. The majority of websites that we build are created with a modern, professional style in mind. Every site is built from the ground up(we do not use templates), making each project unique, allowing you the opportunity to attract the attention it deserves.

- **Simple yet Unique :** Our designs offer an attractive, intuitive interface with a logical and easy to use navigation layout.
- **Increased Visibility :** We design website with intelligence that creates your specific business identity and makes your business stand out.
- **Customer Oriented :** We strive to ensure that each and every need of our customer is met or exceeded.

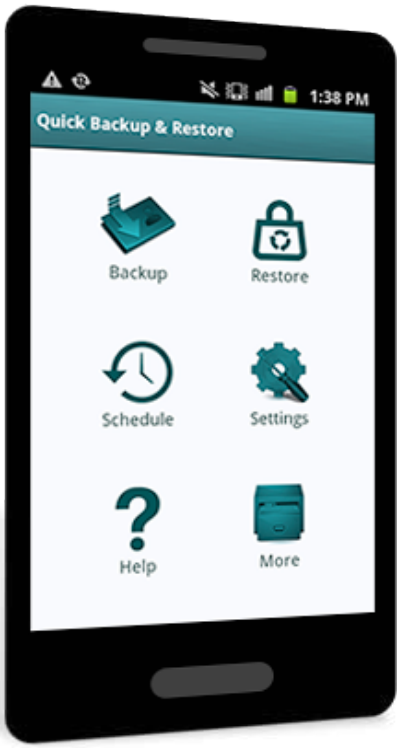
# Android Apps Development

Despite of making a market presence quite late, Android operating system is fast catching up the popularity of smartphone devices. It is the most popular operating system for mobile application development and the best part is that it is open source. Hence, it is growing every day and we are proud participants of this fastest growing technology.

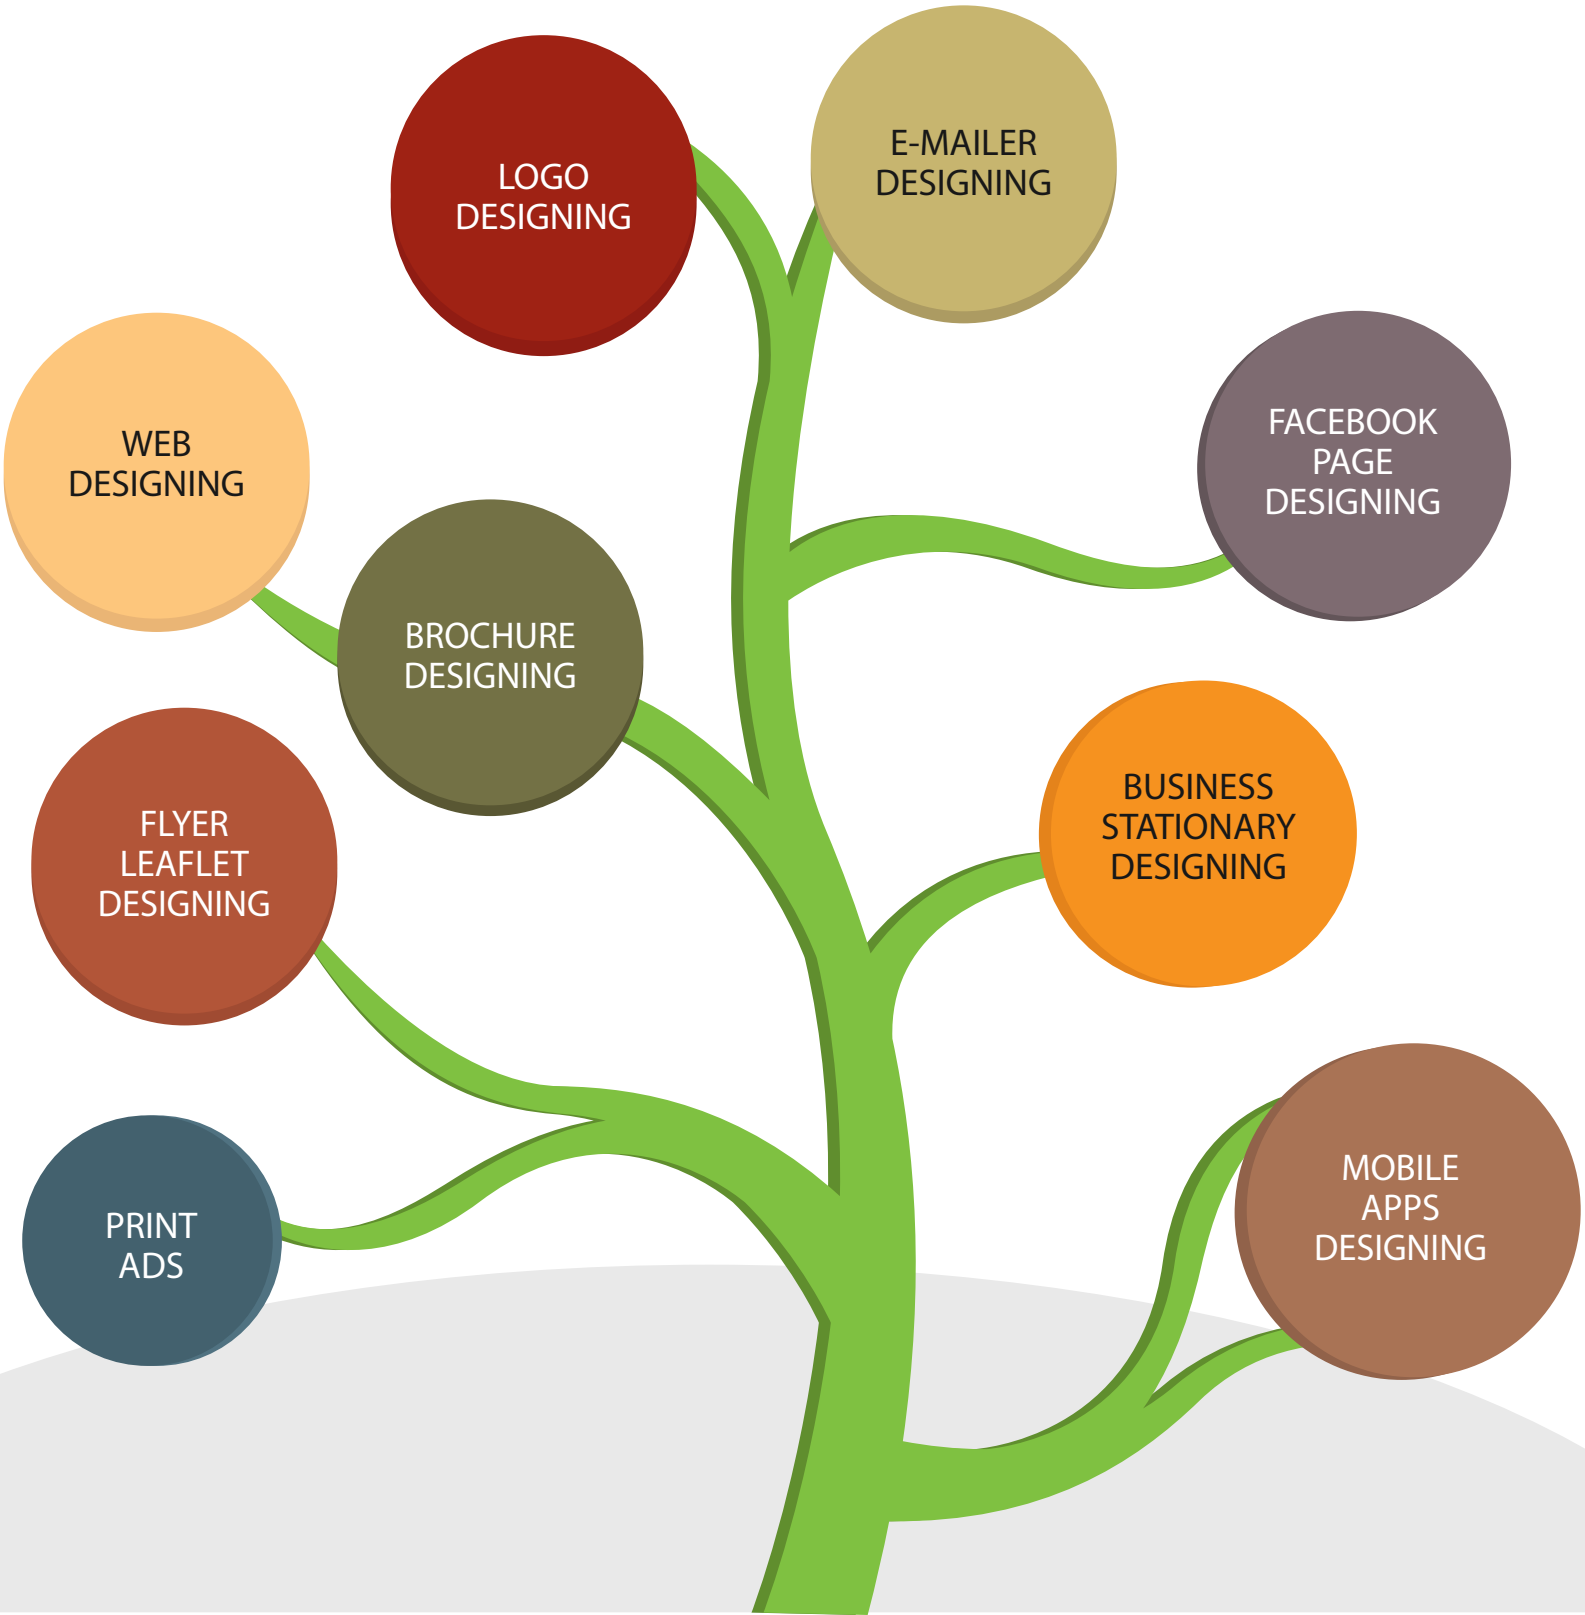
Our Android app development team is skilled at developing for Android Devices including phones, tablets and phablets.We optimize the design of the application based on your requirement so that the user experience in the application is personalized and has a minimal learning curve.



## Quick Backup and Restore

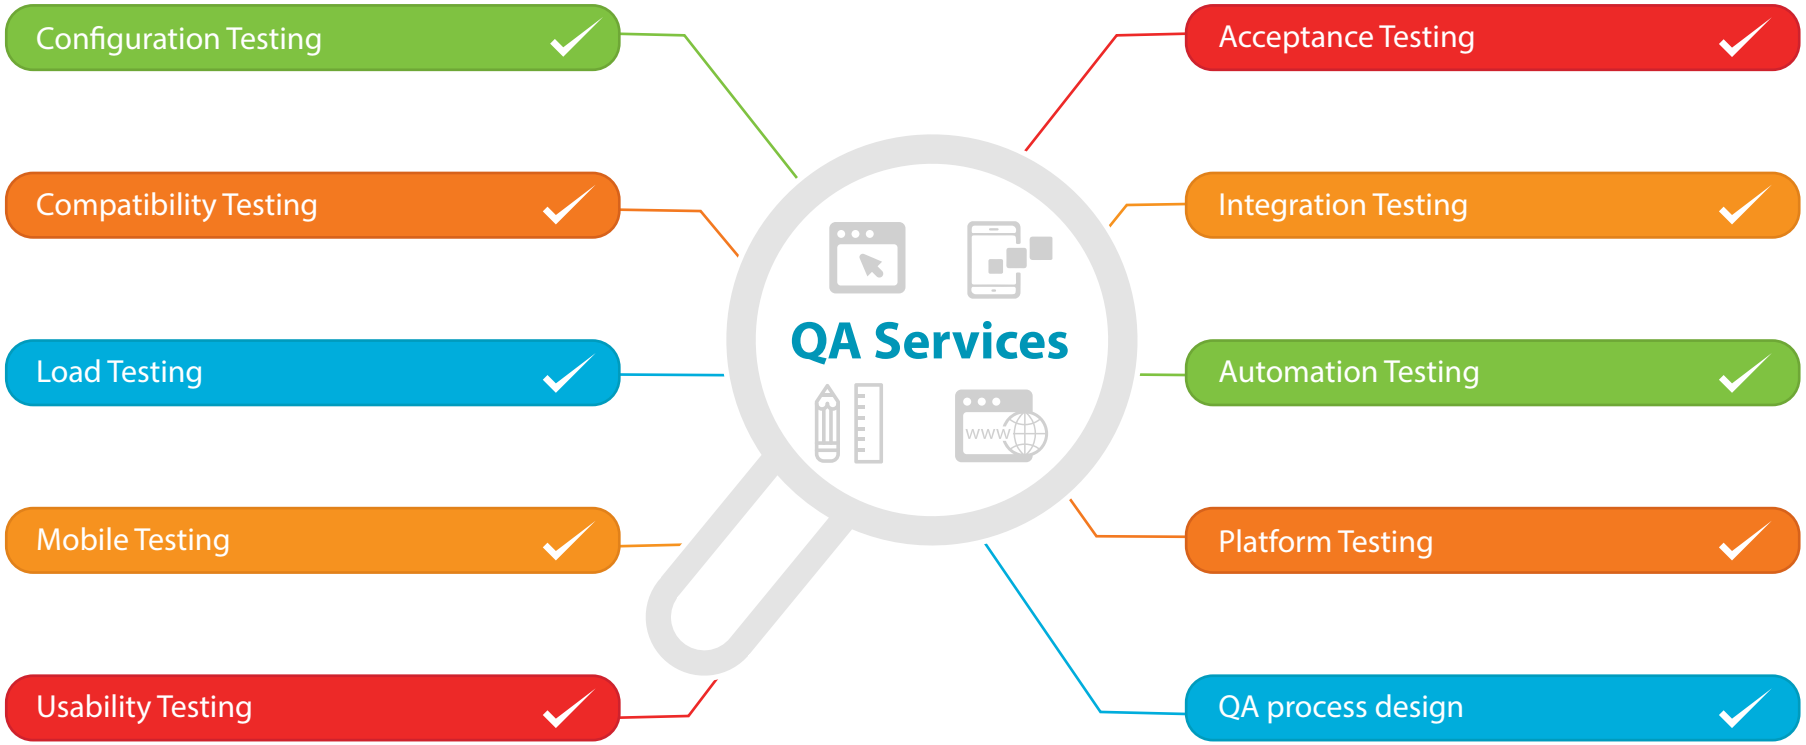
- Quick Backup & Restore is a simple Android app that backups and restores your phone's text SMS, Contacts and Call logs.
- Backup of SMS, Contacts and Call Logs stores on sd card in .db format and send as .csv and .db format on email.
- This app provides functionality to Schedule backups.
- Quick Backup & Restore provides functionality for individual backup and restore as well as one click backup and restore.
- Backup format is independent of the Android version so the messages can be easily moved from one phone to another, irrespective of the Android version.
- This app is completely ads free.
- If you intend to do a factory reset on the phone, please make sure you save/email a copy of the backup outside the phone before doing it.
- This app displays your handset IMEI number as well as SIM serial number.
- You can send your feedbacks to us via email through feedback screen.
- You can see activity details of your backups and restores.

# GRAPHIC DESIGNING



# QA Services

We can provide you the best solutions and more control over the testing process, resulting in higher productivity of your existing teams and releases. Outsourcing testing work to specialized service providers is always the best solution for cost-cutting and building a high quality competitive product in the market.



# Our Team

We understand that the people are the biggest asset of a software company. Keeping this in mind, we provide ample opportunity to grow professionally, work in an environment that each individual is comfortable in as well as relax during work.

Our team members work in conjunction with each other to provide the client with an efficient product with in the predefined time frame.

## Development Team

Equipped with latest technologies and in-depth industry experience, our developers are fully capable of delivering highly productive, scalable and attractive solutions. Our developers have a minimum of 3 years of industry experience. We take extra care to make sure that our developers are exposed to the latest technologies so that they stay informed and enthusiastic about projects.

## Designing Team

Whether it is representing your brand true to its spirit on a website, creating mobile app interface or developing customized advertisement content, we have got the expertise in-house. Our graphic and web designers let their designs speak for themselves. It is the work of our graphics team which makes our project look simple yet unique. Our designers are expert in tools like Photoshop, Adobe Illustrator, Corel, Flash, and Dreamweaver.

## Networking Team

We have a team of expert network and system administrators. Networking team provides technical and operational support for client networks. We implement & maintain Backup and Disaster Recovery (BDR), implement & maintain network security, reduce downtime for systems and increase performance.

## QA Team

The maximum responsibility is shouldered by the QA team. The projects developed by the developers are tested at various stages by the QA team. It is the QA team which ensures the delivery of an efficient product close to the client's expectations. Our team is well versed with black box, white box and automated testing techniques.
